We stock all types of high quality tents at lowest prices in Sri Lanka.

New UV Poly Titanium

Fabric combines the durability of polyester with the reflectance of titanium. The result is unbeatable 50+SPF protection, cooler tent interior, mildew resistance, and a lasting shield against sun & rain.

New UV Text 5

STRONGER- resists the destructive effects of UV radiation on fabrics up to 6 times longer than nylon.

COOLER- reflects heat and keeps the tent up to 10 f cooler than standard nylon.

DRYER- non stretch, treated fabric ensures maximum water protection and provides dryness superior to ordinary nylon tents.

SAFER- unmatched 50+UPF protection rating against the damaging effects of UV rays.
